

APPROVAL AND TESTING SERVICES

The equipment, materials and services listed in the Approval Guide have been FM Approved, unless otherwise specified, by FM Approvals. In every case, these products and services have been subjected to examinations and inspections and have been found to satisfy the criteria for Approval. These examinations and inspections are performed by FM Approvals technicians and engineers according to FM Approvals requirements or recognized national and international requirements. Listed products are readily identifiable and available on the market.

Continued Approval depends on satisfactory field performance and conditions covered by the Agreement executed between FM Approvals and the client. As a condition of retaining Approval, manufacturing facilities and services are subject to periodic unannounced audits. FM Approved products and services must not be changed or otherwise modified without prior authorization by FM Approvals. Unauthorized alterations or modifications may impact on the safety and performance of the product and will void the Approval.

There is a distinction between “FM Approved” and “acceptance” by FM Global. *FM Approved* is confirmation and subsequent listing by FM Approvals that a product or service has been examined according to requirements and found suitable, subject to any limitations stated in the Approval. Devices and services listed in this Guide are FM Approved, unless otherwise indicated. *Acceptance* is confirmation that equipment or materials installed at a *specific location* are suitable for their intended use. *Accepted equipment or materials may be, but are not necessarily, FM Approved.*

In addition to testing a product for Approval, FM Approvals tests products to meet certain standards or criteria set and required by others. Sometimes a product so tested is marked or advertised to that effect. However, FM Approval should not be inferred.

Approval of a product does not imply any warranty by FM Approvals against defects or failure in service, nor any responsibility in regard to patent infringements.

Most FM Approved products will bear one of the marks as shown above. Only companies providing Approved products or services may use these marks on their products or in their literature or advertising. The marks may be used only for the specific products or services FM Approved.

The listings in this Guide should be consulted before products affecting property conservation are purchased. Manufacturers should also be consulted for further explanation of specific model numbers. The particular product, as listed, should be specified when an order is placed with the manufacturer or supplier.

Specifically, FM Global is not responsible for any costs including, but not limited to, those incurred as a result of lost profits or revenue, claims by third parties, or for other costs. Information contained in the Guide is subject to change without notice.

The Approval Guide is published quarterly, and available on CD-ROM for US\$165 each. **Beginning in 2005 paper bound editions of the Approval Guide will no longer be available.** Orders should be addressed to FM Global, Customer Services, 1151 Boston-Providence Turnpike, P.O. Box 9102, Norwood, MA 02062 USA. Orders may be placed, using major credit cards, by calling (781) 255-6681; (877) 364-6726 (toll free in U.S. and Canada); or fax (781) 255-0181 or by going directly to our Web site: www.fmglobal.com/scripts/store/item_details.asp?catid=13&prodID=55

In the electronic version of the Approval Guide text appearing in **red** represents changes or additions effective to the current edition.

The Managing Editor and Editor are grateful to the manufacturers who have supplied illustrative material. Pictures selected show typical devices and do not indicate special merit for a particular make, nor is the order of listing indicative of comparative merit. It is entirely alphabetical.
