Two COMPOSITES Attendees Win Luxury Vacations

February 18, 2010 (Arlington, Va.) – Two lucky attendees at COMPOSITES 2010 won a vacation package of their choice to the sun or slopes with appropriate composites sports gear, valued to \$5,000, during the closing moments of the show, which took place February 9-11 in Las Vegas. Crowds gathered to hear that Daniel Bannon of Advanced Infrastructure Technologies, Orono, Maine, and Sorin Roccolta of Southwest Fiberglass, Tucson, Ariz., won the grand prize give-aways.”

The grand prizes were sponsored by Cook Composites & Polymers Co. (CCP), Kansas City, Mo. Through CCP’s generous sponsorship, a luxury boat was given away at last year’s COMPOSITES event.

“CCP is always proud to support the efforts of the ACMA and more specifically the COMPOSITES 2010 show. This year there was a lot of energy in the exhibit hall and the excitement was contagious,” said Dwayne Pinnell, CCP’s Director of Corporate Communications.

This year’s COMPOSITES exhibition and convention saw an 18 percent increase in attendance from last year, according to the [American Composites Manufacturers Association](http://www.acmanet.org) (ACMA), which hosts the largest composites industry event in North

America. According to ACMA, the event drew more than 3,000 participants, including attendees, exhibitors and press from nearly every state and 42 countries.

COMPOSITES 2010 offered a broad range of opportunities to learn more about traditional and emerging opportunities in composites manufacturing and end-market uses. Innovative new products were also displayed onsite and many exhibitors drew crowds with live manufacturing demonstrations and new products launched in the booths.

The next COMPOSITES event will be held February 2-4, 2011, in Ft. Lauderdale, Fla. For more information about COMPOSITES and complete show coverage, visit www.acmashow.org.
